

## League of Women Voters of Ohio Early Voting Update

---

Dear Ohio League members,

**Last week, we celebrated when the federal court ruled in our favor in our early voting lawsuit, [NAACP v. Husted](#).** A summary of the court decision is available [here](#).

**This week, the State appealed.** The appeals court set an expedited schedule to hear the case, but the last brief isn't due until September 22. That means that **we may not have a final decision for another two weeks.**

**I'm sure you share our concern for what this means for voters. We're going to have to work extra hard to make sure voters know what the rules are, even as they continue to be in flux.**

As we promised you last week, we will be updating our voter education materials, including the popular "Voting 1-2-3" series, to keep them as current as possible. In addition, **we created a new piece: "Voting 1-2-3: Early Voting Update" to explain Ohio early voting options while the case is on appeal. This online-only piece is available at [bit.ly/Voting123OhioEarlyVoting](http://bit.ly/Voting123OhioEarlyVoting)**

We will continue to keep you posted on important developments in our case. Now we would like to ask you for your help because preparing and distributing timely election materials in an environment where the information is ever changing is **very** costly. **Please give a gift to help us keep producing and distributing updated voting information.**

**[Click here to donate securely online.](#)**

Yours in League,

Carrie L. Davis  
Executive Director
