<sup>1</sup> *Face to Face* was first published by the League in 1996 as a guide to help Leagues sponsor and produce effective, fair and interesting candidate debates. This publication was updated in 2007 but has not been revised in recent years. While the information on the processes for creating fair debates still offers good guidance, due to changes in laws since that time, you'll find some of the information is out dated. Please use this handbook as a reference, but do not solely rely on its contents. Please make sure to check the laws in your state and look at other documents on the LWVU LWVUS website.
